

Job Title: Maintenance Planner
Reports to: Technical Services Manager
Department: Technical Services
Work Hours: Monday to Friday, 0900-1730

Based in the Technical Services Department in Swords Co Dublin, this role primarily involves the creation, on-going administration and development of the maintenance plan for the ASL Ireland Fleet, including both line and base maintenance requirements.

This role has emphasis on liaising with Technical Services Engineers, Line Maintenance Engineers, Logistics Department and Base Maintenance MRO facilities regarding any issues of a technical nature resulting from the implementation of the maintenance plan.

The ideal candidate will;

- hold a recognised aircraft engineering qualification (Part 66 or degree) or have a minimum of five years' experience of engineering support/record keeping/maintenance planning."
- have a good knowledge of Maintenance Programmes and CAMO activities.
- knowledge of a current aircraft maintenance planning system such as AMOS, TRAX or OASES will be an advantage.
- needs to work well within a team in a busy office environment
- Hold an EDCL or possess sound knowledge of basic computer programmes such as MS Word, Excel, Access and Outlook.
- shall maintain competence on the basis of continued education and training in their area of responsibility. The company will facilitate this process.

Closing date for written applications is 21st June 2018
